

- h.vii. Changing room must keep closed at all times, customer will need a key to enter, make sure that changing room is disinfected before and after use. No clothes or other products can be left inside the changing room.

Working from home procedures

When possible please work from home, like placing orders, trade shows, answering emails, answering phone calls. We know that this may be possible on low season – off season.

Shuswap Marina regulations Covid-19

At Shuswap Marina we follow the Provincial Health Orders.

Mobile phones and other electronics

Mobile phones and other frequently touched electronics like tablets, remotes, keyboards, mice and gaming consoles can carry germs. These electronics should be cleaned and disinfected regularly.

- First, remove visible dirt, grease, etc.
- Check the manufacturer's instructions for cleaning and disinfecting.
- If no manufacturer guidance is available, use disinfectant wipes or sprays with at least 70% alcohol.
- Dry surfaces thoroughly to avoid pooling of liquids.
- Do not immerse devices in liquids and do not use hydrogen peroxide or vinegar as they do not work and may damage screens.
- Consider using plastic covers or screen protectors to make cleaning and disinfection easier.

Tips for using disinfectants and bleach safely

- Open a window and wear gloves when disinfecting.
- Take care to rinse the equipment that you use to make your bleach solution and keep bleach tightly-sealed and stored away from children and pets.
- More concentrated solutions are not better and may cause irritation to the eyes and throat. Use the table above to make the right solution for your needs.
- Do not mix bleach with vinegar or other acids like lemon juice, ammonia-containing products (such as Windex), or rubbing alcohol. This can create toxic gases.
- When using bleach on surfaces, allow the surface to air dry completely before using again.
- Dispose of any leftover bleach mixtures so people won't mistake them for something else or mix them with other products by mistake. If you pour your extra bleach solutions down the drain, run a lot of water down the drain at the same time.
